Reset check engine light on 2003 beetle—Fixya

Beetle Check Engine Light Flashing Due to Ignition Issues. The ignition system is the most common reason that the check engine light will flash. The ignition system consists of spark plugs, plug wires, and the ignition coil packs (older vehicles have a distributor that has the same function as coil packs). These parts work in concert to ignite ...

Air Bag Light On Problems of the 2003 Volkswagen New Beetle

I have a 2001 beetle and the check engine light is coming on. I don't see any smoke coming from the engine. The car runs great. I was wondering if this could be a small problem as in clearing the codes. Because I've done some research and some people say it comes on for no reason when the car is fine. Anyone who knows about cars could answer this for me would be great thanks

2003 vw beetle..check engine light..mileage..the engine...

I can't imagine that an 03 beetle requires premium fuel. What I need you to do is have the check engine light checked. If it is on, there is a code stored in the computer that will identify where the problem is coming from.
