If you quit smoking one year ago and have gone without a cigarette for all that time, that is quite an achievement.

Relapse rates for smokers during their first year of trying to quit range from 60 to 90 percent. The good news is that the outlook improves after you've made it two years without smoking.

- Mamapedia™

Postpartum Belly After Two Years.
Updated on March 21, 2010 ... The exercise alone never made a dent in my belly fat, but giving up the carbs and sugar has made a huge difference in just the one month I have been doing it. Come Easter, I will definitely try to keep watching what i eat b/c the results are so exciting!
