## **Smart ...**

Gardner first outlined his theory in his 1983 book *Frames of Mind: The Theory of Multiple Intelligences*, where he suggested that all people have different kinds of "intelligences." Gardner proposed that there are eight intelligences, and has suggested the possible addition of a ninth known as "existentialist intelligence."

While there isn't solid research suggesting we can sleep on books to absorb the words, there are still up to seven types of learning styles that you can identify with to help you know how to turn studying and preparation into an easy task. All of the styles can be mixed with each other, but picking and choosing can become pretty overwhelming.
