The Saturn S-series was a family of compact cars from the Saturn automobile company of General Motors. Saturn pioneered the brand-wide "no haggle" sales technique. The automobile platform, the Z-body, was developed entirely in-house at Saturn, and it shared very little with the rest of the General Motors model line. It implemented a spaceframe design, which had been used on some Pontiacs ...

~~What are the torque specs for a 2.9 L Chevy Colorado oil ...~~

with out going into legalities etc - A well tuned engine does not need a cat to pass a sniffer test. An example - my '74 Bronco with a freshly tuned 302 w/ 4 barrel carb, headers, etc, no cats, no emmisions equipment what so ever, on unleaded mid grade gas - had cleaner exhaust than my '97 Saturn when I bought it with 30,000 miles on it in '99.
