Since its first edition in 1951, Industrial Ventilation: A Manual of Recommended Practice has been used by engineers, regulators and industrial hygienists to design and evaluate industrial ventilation systems.

~~law.resource.org~~

Hoods must meet the design criteria in the ACGIH Industrial Ventilation Manual or applicable OSHA standards. Most hood design recommendations account for cross-drafts that interfere with hood operation. Strong cross-drafts can easily reduce a hood's effectiveness by 75%. Standard hood designs may not be adequate to contain highly toxic materials.

The ACGIH industrial ventilation operation and maintenance manual describes the fundamentals of measuring techniques used to collect ventilation data, troubleshooting, and strategies for determining frequency of surveillance.

~~Industrial Ventilation: A Manual of Recommended Practice ...~~

Since its first edition in 1951, Industrial Ventilation: A Manual of Recommended Practice has been used by engineers, regulators and industrial hygienists to design and evaluate industrial ventilation systems.

~~Industrial Ventilation: A Manual of Recommended ...~~ ACGIH

Since its first edition in 1951, Industrial Ventilation: A Manual of Recommended Practice has been used by engineers, regulators and industrial hygienists to design and evaluate industrial ventilation systems. Beginning with the 26th Edition, the Manual has undergone several major reorganizations and upgrades:

~~Industrial Ventilation: A Manual of Recommended Practice ...~~

Some of the highlights of this manual include: Guidance and training information for personnel with responsibilities for the acquisition, operation, and maintenance of industrial ventilation systems.

~~VENTILATION TECHNICAL GUIDE,~~

The 2019 Supplement contains Documentation for the substances, with their corresponding values and notations, that were on the NICs for 2018, and have been approved and adopted as TLVs ® and BEIs ®. This manual is intended as a companion to the 26th and future editions of Industrial Ventilation: A Manual of Recommended Practice for Design.
