...

5-4 An activity-based approach refines a costing system by focusing on individual activities (events, tasks, or units of work with a specified purpose) as the fundamental cost objects. It uses the cost of these activities as the basis for assigning costs to other cost objects such as products or services. 5-5 Four levels of a cost hierarchy are

CHAPTER 5 ACTIVITY-BASED COSTING AND ACTIVITY-BASED ...

Activity-based costing can be more time-consuming and prone to human error than functional-based costing. In order to determine the cost of single activity, accountants must consider compensation costs, materials costs and overhead costs to come up with a single activity cost, tripling the amount of research required.

Functional-Based Vs. Activity-Based Cost Accounting ...

In activity-based costing, the manufacturing overhead cost per unit will depend partially on the number of units in a batch. True. Right! For example, a setup cost of \$800 is associated with the batch of items that will be processed. A large quantity of items processed will mean a low setup cost per unit.
