Additive Volume 5th Grade Practice [EPUB]

Measurement and data (5th grade) Volume (5th grade) Recognize that volume is additive by finding the volume of a 3D figure composed of two rectangular prisms. An updated version of this instructional video is available. Instructional video. Draft.

Recognize that volume is additive by finding the volume of ...

Similar to students' work with area, students develop an understanding of volume as an attribute of solid figures (5.MD.3) and measure it by counting unit cubes (5.MD.4). Students then connect volume to the operation of multiplication of length, width, and height or of the area of the base and the height and to the operation of addition to find composite area (5.MD.5).
