On a long-range airplane, such as the MD-11, being able to dispatch the airplane when it is several thousand miles from the airline ' s maintenance facility and one navigation system has failed is very important to securing the bottom line for the operator. Such airplanes therefore usually have triple navigation systems.

McDonnell Douglas MD-11 Avionics System

This fall protection, adjustable engine maintenance stand was designed specifically to service large commercial aircraft and offers access to engines and the stabilizer, elevator, vertical fin, and rudder for routine and emergency maintenance. The platform height elevates 11' 1" / 3' to 29' [136" - 348"]. Standard Features
