Aircraft Propulsion by Saeed Farokhi (2014, Hardcover) for ...

The work done by the system is equal to the difference in the heat put into the system and the heat taken out .. Here, is the temperature of hot reservoir, is the temperature of cold reservoir, is the change in entropy of the hot reservoir, is the change in entropy of the cold reservoir. Since the total change of entropy of the system for the cyclic process is zero, we must have the following ...
