~~Renounceable Right Definition~~

Shares in a company are 'allotted' when a person acquires the unconditional right to have their name included in its register of members in respect of those shares. Shares in a company are 'issued' when the name of the person to whom those shares have been allotted is entered in its register of members in respect of them.

A rights issue or rights offer is a dividend of subscription rights to buy additional securities in a company made to the company's existing security holders. When the rights are for equity securities, such as shares, in a public company, it is a non-dilutive pro rata way to raise capital. Rights issues are typically sold via a prospectus or prospectus supplement. With the issued rights, existing security-holders have the privilege to buy a specified number of new securities from ...
