LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Animal Planet Animals A Visual

Animal Planet - Official Site

At 304 pages, Animal Planet Animals: A Visual Encyclopedia is packed with information on over 2,500 animals and over 1,000 color photographs. Animal Planet Animals: A Visual Encyclopedia is divided into eight chapters with detailed profiles of the seven animal classes, which are also color coded. One feature that I find especially interesting is the green "Surprisingly Human" content box that appears from time to time, sharing facts about animals that our species shares, like the fact that ...
