point. The Ocean Mapping Gizmo™ allows you to create and interpret maps made by this method. 1. On the 3D POINT pane, the blue grid represents the ocean surface. The tan grid represents a depth of 6 meters (19.7 feet). Each cube has a height of 1 meter. To find the depth of the ocean, subtract the number of cubes from 6 meters. A.

The Ocean Mapping Gizmo allows you to create and interpret ...

Coastal and Ocean Mapping. Even with technological advances, only a limited portion of the vast seafloor has actually been mapped. Consequently, seafloor mapping is an important part of the NOAA Office of Ocean Exploration and Research's (OER) expeditions, delivering high-resolution bathymetric maps and data for previously unexplored areas. We are active participants in the Integrated Ocean and Coastal Mapping (IOCM) Program.
