EXERCISE 9 The Axial Skeleton

Mitosis and Meiosis Introduction There are two types of nuclear division, mitosis and meiosis. Mitosis is usually used for the growth and replacement of somatic cells, while meiosis produces the gametes or spores used in an organism's reproduction. Mitosis is the first of these studied in this lab. It is easily observed in ... Continue reading "Lab 3 Sample Ap Mitosis & Meiosis"

Biology Questions

This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms.

BIO181 LAB MANUAL - Estrella Mountain Community College

I am having trouble with my college schedule, I need to take bio 168 but I'm not available to take it during the times it's offered and there is no way around it. They do offer an online class, but I'm skeptical to take it because I've heard that it is extremely difficult online from several people including the school staff. I am wondering if anyone has taken it online and how hard it was ...

Reviewed by Nathan Hovekamp, Instructor of Biology, Central Oregon Community College on 8/21/16. Concepts of Biology is an effectively comprehensive textbook for the non-major. It covers molecular and cellular biology, genetics and DNA, evolution and diversity, animal structure and function, and ecology. A good example of its inclusion of the...
