AP Physics 1 Course - NJCTL

I'm revamping my regular physics this year to better align with NGSS. I found your resources invaluable for my AP Physics 1 course. Am I correct that vectors in 2D (trig) are NOT covered in this course (inclined planes, projectiles, static equilibrium, etc)? In the past I have covered forces in 2D so I never get to momentum.

Algebra Based Physics Course - NJCTL

Students will learn AP Physics 1 and be prepared to take the AP Exam. Topics include vector analysis, 2D kinematics &

Online Library Ap Physics 1 Njctl

dynamics, circular motion & universal gravitation, rotational motion, energy & momentum, simple harmonic motion, waves & sound waves, and electric force & circuits. Prerequisite: Algebra-Based Physics or Instructor Approval
