AnyAPI

Don't create a web API controller by deriving from the Controller class. Controller derives from ControllerBase and adds support for views, so it's for handling web pages, not web API requests. There's an exception to this rule: if you plan to use the same controller for both views and web APIs, derive it from Controller.. The ControllerBase class provides many properties and methods that are ...

API Data Book - EPCON Software

COVID-19 NOTICE: The ongoing COVID-19 pandemic is causing evolving changes in national, state, and local guidelines related to infection prevention and control. While some of our content discusses COVID-19, please note that the APIC Text is intended as a fundamental reference and should not supersede any official guidance from health authorities.
