Numerical Methods with MATLAB: Implementations and Applications is a textbook for third and fourth year undergraduates in engineering and science. The book uses MATLAB, a software tool that supports both interactive computing and structured programming.

Numerical Methods with MATLAB

Applied Numerical Methods with MATLAB for Engineers and Scientists 4th edition (PDF) is written for college students who want to learn and apply numerical methods in order to solve problems in science and engineering. As such, the methods are motivated by good problems rather than by mathematics.
