The need for radio frequency shielding; Shielding theory; Modular shielded enclosures; Welded shielded enclosures; Architectural shielding; Penetrations and their control; Electrical filters; Enclosure performance specifications and testing; Grounding of shielded enclosures; Design checklists.

~~Architectural electromagnetic shielding handbook a design ...~~  
Materials used. Copper is used for radio frequency (RF) shielding because it absorbs radio and electromagnetic waves. Properly designed and constructed copper RF shielding enclosures satisfy most RF shielding needs, from computer and electrical switching rooms to hospital CAT-scan and MRI facilities.

~~Architectural Electromagnetic Shielding Handbook A Design ...~~  
The first volume ever to cover all aspects of the subject, Architectural Electromagnetic Shielding Handbook provides the practicing architect/engineer with a comprehensive guide to
