The architecture world lost an inimitable legend when British-Iraqi architect Zaha Hadid died at the age of 65 in 2016. One of the world's leading contemporary architects, Hadid was born in Baghdad in 1950 and later studied mathematics at the American University of Beirut and architecture at London's Architectural Association (AA) School before establishing her own practice, Zaha Hadid ...

### The Work of Architect Zaha Hadid

Characteristics of Zaha Hadid Architecture. Known as the "queen of curves," Zaha Hadid's architecture isn't easily grouped with one particular architectural style. It was a purposeful choice, as Hadid preferred not to limit her practice to a specific movement. She is well-known for her use of geometric shapes to create dynamic, fluid structures.

Hadid became a naturalised citizen of the United Kingdom. She opened her own architectural firm, Zaha Hadid Architects, in London in 1980. During the early 1980s Hadid's style introduced audiences to a new modern architecture style through her extremely detailed and professional sketches.

### Zaha Hadid - Wikipedia

Zaha Hadid, in full Dame Zaha Hadid, (born October 31, 1950, Baghdad, Iraq—died March 31, 2016, Miami, Florida, U.S.), Iraqi-born British architect

known for her radical deconstructivist designs. In 2004 she became the first woman to be awarded the Pritzker Architecture Prize.

### **Zaha Hadid | Biography, Buildings, & Facts | Britannica**

A statement read: 'Zaha Hadid Architects is dismayed by the unfounded allegations being made against Patrik Schumacher. The allegations are unproven, contested, and must be considered in the context of a long-running, acrimonious dispute between the trustees of Zaha's estate. The independence of the investigations is also contested.
