Basic House Wiring Rules. Power off. Before doing any electrical work, make sure the power is off at the breaker. If possible make sure everyone in the area knows it is turned off for a reason. Leave a note to say you are working on the circuit and tape the circuit breaker into the off position.

Basic House Wiring Rules - (14 SAFETY TIPS) | My Dimmer Switch

Most wiring in a home is either 12-gauge or 14-gauge. Typically, when attaching existing wiring to a device or fixture, you will follow the color code by matching each color wire with its corresponding twin. Light switches, for example, operate on the black wire and will connect directly to another black wire already in the system.

How to Install Electrical Wiring | DoItYourself.com

Anytime you are working with basic house wiring, study up on standard procedures so you don't put your family or yourself in jeopardy. And if you're undertaking a major home wiring project, get familiar with your local inspector. Don't view them as a hurdle to overcome, but as a valuable resource you can draw on to get the job done right.
