Introduced by Alistair Moffat this is the story of Scotland before history. Beginning 10,000 years ago, it is a beautifully shot record of our prehistory, taking in the spectacular monuments on Orkney and the Isle of Lewis as well as the fortress of Dunadd and the sacred landscape of the Kilmartin Valley in Argyll.

A very well written book of the early times of the UK peoples starting around 1 BC/AD. Would have loved to have seen a little more of the pre- Roman/Christian era, but loved the details of Doggerland and some of the others. It was very entertaining with the usual history, archaeological material, and battles here and there.
