The ground portion of the CFI checkride will be eight hours. Wow—as a designated pilot examiner, I certainly hope not. A CFI test is supposed to be completed in a single day. That means both the ground and flight portions. While the CFI ground portion often will take three to five hours, if it is going beyond that it is probably not a good sign.

## **Initial CFI checkride myths, dispelled - AOPA**

A basic expectation of any checkride is flight planning. You may be asked to prepare a cross-country flight plan. Suffice it to say, weight and balance and performance data should be a part of this preparation. Check and double check your work and be prepared to explain how the information was derived.

Mr.Mogadishu on Jul 01, 2014 . Your checklist looks fair enough but i recommend you to depict the whole route into your students mind that you could print out the route map for him on the ground and instruct him about all checklists, navigational aids, communication settings then let him imeginary fly the sorti on the ground at least one day prior ETD/DOF if possible.
