Torpedo boat destroyers. In 1913, the surviving members of the large heterogeneous array of older 27-knot and 30-knot torpedo boat destroyer types (all six of the original 26-knot ships had been disposed of by the end of 1912) were organised into the A, B, C and D classes according to their design speed and the number of funnels they possessed. All were of a "turtle-back" design and, excepting ...
