Case studies can also be developed to challenge a student's ability to form good clinical judgments, make appropriate assessments, select the necessary laboratory and diagnostic tests, interpret laboratory and diagnostic results, formulate differential diagnoses, and plan patient care (Winkelman, Kelley, & Savrin, 2012).

### **Improving Family Nurse Practitioner Students' Confidence ...**

A case study is a special type of thought leadership content that tells a story. Case studies are narratives that feature real world situations or uses of products or services to demonstrate their value. A well written case study will follow a customer as they define a problem, determine a solution, implement it, and reap the benefits.
