Colour Index International is a reference database jointly maintained by the Society of Dyers and Colourists and the American Association of Textile Chemists and Colorists. It currently contains over 27,000 individual products listed under 13,000 Colour Index Generic Names. It was first printed in 1925 but is now published solely on the World Wide Web.

Colour Index International - Wikipedia

Choose any of our 1,500 colors to sample and test. Experiment with color on the actual surface where it will be applied. Better assess the color in the environment where it will be used. Determine how lighting and other elements will affect the color and feel of the room. Take the guesswork out of choosing the right color.

Color to Go® Paint Samples - Sherwin-Williams

The Color Rendering Index & Lighting. The type of light bulb you use in your home could have a profound effect on the way a room looks. This is often attributed to something known as the color rendering index. Also referred to as CRI, this index measures the ability of a light source to reveal colors of objects in contrast to a natural light source, such as the sun filtering in through your ...
