current state of research and demonstrate your knowledge of scholarly debates around a topic. The content will look slightly different in each case, but the process of conducting a literature review follows the same steps.

The Literature Review | A Complete Step-by-Step Guide

A literature review can be a part of a research paper or scholarly article, usually falling after the introduction and before the research methods sections. In these cases, the lit review just needs to cover scholarship that is important to the issue you are writing about; sometimes it will also cover key sources that informed your research methodology.
