KBC has also created a referral form to allow parents to give hospitals permission to notify WIC, home visitor programs, and others when the parent has given birth so these programs can coordinate timely care for the family postpartum.

USBC : Action 8: Continuity of Care

Continuity of care has been a major theme

Get Free Continuity Of Care In Breastfeeding

driving maternity policy in a number of high income countries: eg Australia (Rowley et al 1995), and some parts of Canada (De Koninck et al 2001). This is partly due to continuity, across a range of health care settings, including maternity, having been shown to be associated with positive health outcomes.
