### Crystal Fire: The Invention of the Transistor and the ...

Crystal Fire: The Birth of the Information Age. Theme: Sources Harold Fox. "Silicon" is a compound that defines much of the modern technological era. The term connotes high-technology, exponential progress in Moore's law, Silicon Valley, solar panels, even plastic surgery. The source of this transformation in large part arises from a single invention, the transistor, a sandwich of different types of silicon crystals.

### Crystal Fire: The Birth of the Information Age

Crystal Fire.. Who'd have thought the authors of a book this interesting from a, "people who were involved" perspective, could also explain, so clearly in near layman's terms, solid state physics principles and knowledge progression from the early years on up through invention of the transistor

- and beyond.
