Ebola virus (EBOV) causes severe human disease with a high case fatality rate. The balance of evidence implies that the virus circulates in bats. The molecular basis for host-viral interactions, including the role for phosphorylation during infections, is largely undescribed. To address this, and to better understand the biology of EBOV, the phosphorylation of EBOV proteins was analyzed in ...

Ebola: The Natural and Human History of a Deadly Virus by David Quammen "Ebola: The Natural and Human History of a Deadly Virus" is a very interesting behind-the-scenes look at the quest to find the host animal carrying this devastating virus. This brief book is a product of sections of his 2012 book Spillover and recent events.

Outbreak is a medical thriller written by Robin Cook and published in 1987 which deals with an outbreak of the deadly Ebola virus in the United States.. Despite its name and very similar storyline, the book is not connected to the 1995 movie also called Outbreak. [citation needed] The book was made into a television movie in 1995 and released under the title Robin Cook's Virus, later renamed ...

I picked up this book because I am oddly fascinated with the Ebola virus in particular as well Marburg and other hemorrhagic fevers. I expected it to be more of a documentary, but it was also a novel, with a great story surrounding a group of Catholic Nuns and their Mission in Yambuku, Zaire.

Remdesivir is a broad-spectrum antiviral medication developed by the biopharmaceutical company Gilead Sciences. As of 2020, remdesivir is being tested as a specific treatment for COVID-19, and has been authorized for emergency use in the U.S. and approved for use in Japan for people with severe symptoms. It may shorten the time it takes to recover from the infection.
