Operative Dentistry

1841. Alabama enacts the first dental practice act, regulating dentistry in the United States. The act called for the assignment of a dentist to the state's medical board in order to grant licenses for practicing dentistry in the state, however, the act was never enforced, few dentists are ever assigned a seat on the medical board and only a couple of dental licenses are ever granted during ...

General Dentistry

Operative dentistry has undergone significant changes in the last 40 years, including the development of the high-speed drill, the use of lasers, particle abrasion, bleaching, bonding, and computer-generated restorations. In addition, aesthetic dentistry has become a major emphasis in the current teaching program.
