It has made its way into science text-books across the world and has lodged itself firmly in there. Many people have tried to dislodge it but have failed to do so. Evolution on Trial is re-opening the case against evolution to establish whether the evidence actually supports evolution or whether the theory is spurious.

Evolution on Trial by Anonymous - Goodreads

Evolution is on trial. Cracks are forming in its foundations. On today's program, I'll show you who some of these scientists are, what some of the cracks are in this failing theory, and tell you about a new booklet, written by fellow presenter Wallace Smith, on Evolution and Creation. It can be yours free for the asking, so stay tuned!

Evolution: Frequently Asked Questions

From Wikipedia, the free encyclopedia Darwin on Trial is a 1991 book by law professor Phillip E. Johnson disputing tenets of science and evolution and promoting creationism. Johnson wrote the book with the thesis that evolution could be "tried" like a defendant in court.

Darwin on Trial - Wikipedia

The Scopes Trial, formally known as The State of Tennessee v. John Thomas Scopes and commonly referred to as the Scopes Monkey Trial, was an American legal case in July 1925 in which a high school teacher, John T. Scopes, was accused of violating Tennessee's Butler Act, which had made it unlawful to teach human evolution in any state-funded school.[1] The trial was deliberately staged in order to attract publicity to the small town of Dayton, Tennessee, where it was held.

Scopes Trial - Wikipedia

key trial" was a public relations triumph for Darwinism. The scientific establishment was not exactly covering itself with glory at the time, however. Although he did not appear at the trial, the principal spokesman for evolution during the 1920s was Henry Fairfield Osborn, Director of the American Museum of Natural History.

Darwin on Trial - Krusch

These questions came to a head in the famous Scopes-monkey trial in 1935 in Dayton, Tennessee. But, a more recent court case in Dover, Pennsylvania over the teaching of Intelligent Design alongside evolution shows us that the fight to keep Creationism out of biology classrooms (or, to teach Creationism alongside evolution in the classroom) is ...
