5008 Hemodialysis System Operating Instructions

The 5008 dialysis machine enables the simultaneous delivery of post- and pre-dilution volumes — the so called MIXED HDF. With its two substitution pumps, the convective transport can be increased by adding a pre-dilution share to avoid the risk of hemoconcentration or to compensate for low blood flows.

5008 CorDiax & 5008S CorDiax - Fresenius Medical Care

Best therapies Products customised for dialysis at home Fresenius Medical Care provides a complete port folio of products and services which are perfectly suited for the home environment: The compact single station reverse osmosis system (AquaC UNO H) is specially designed for home dialysis with the 5008S CorDiax.

5008S CorDiax - Fresenius Medical Care

The 5008 Therapy System was developed to fulfil current challenges in haemodialysis: continually increasing patient numbers with a growing share of medically challenging patients, combined with often limited funding and staff. The 5008 Therapy System therefore offers a combination of convincingly easy handling with a thoughtful use of the dialysis-relevant resources, coupled with the highest treatment quality and patient safety.
