~~Game Development w/ Construct 2 Tutorial—1—Introduction~~

Construct 2. Game development is very similar to making music, writing books, making movies, and pretty much every other creative process. As a creator, you might have an idea that you want people to enjoy. You have to find the tools and the time necessary to make your ideas a reality. If you don't make your idea a reality, people will not get

How many of you are doing development with Construct 2? I previously did all game programming in XNA and it just consumed too much of my time. I've been toying around with Construct for about two days now. That being said, how many of you are using it? What are the pros and cons? What do you like? What do you dislike? I'd be curious to hear ...
