### **Gender And Crime In Modern**

GENDER AND CRIME Gender is the single best predictor of criminal behavior: men commit more crime, and women commit less. This distinction holds throughout history, for all societies, for all groups, and for nearly every crime category. The universality of this fact is really quite remarkable, even though many tend to take it for granted.

Gender and Crime. The subject of gender and crime is complex, multifaceted, and certainly worthy of serious scholarly attention. For the sake of cohesiveness and general education, this research paper focuses on women and crime; specifically, it outlines the historical lack of specific focus on female criminality and the complications this paucity of attention has thus created

belong to fields such as criminology, sociobiology, or feminist studies. Despite the difficulty of interpreting them, crime statistics may provide a way to investigate such a relationship from a gender differences perspective. An observable difference in crime rates between men and women might be due to social and cultural factors, crimes going unreported, or to biological fac

Scholars in women's studies, men's studies, and more recently  
criminologists, sociologists, and historians informed by gender  
analysis separate the idea of masculinity from its formerly  
subsumed position under the definition of "criminal" and reveal  
a complex history. Notions of masculinity once considered part  
of a monolithic patriarchy fall away to reveal multiple  
"masculinities ...
