Genie S 40 S 45

Genie® S®-40 and S®-45 telescopic booms increase productivity with the traction and drive speed needed to get around jobsites and work areas. These units are designed to easily maneuver in tight spaces on construction and industrial sites. Overview. 360° continuous rotation turntable for quick positioning.

Genie® S®-40 and S®-45 Telescopic Boom Lift

The Genie ® S ®-40 HF and S-45 HF high float telescopic booms are designed to perform heavy-lifting tasks in sensitive turf conditions, such as sand and turf ground conditions. Engineered to “float” on soft or delicate surfaces, the Genie S-40 and S-45 HF booms protect softer surfaces during operation that could be damaged by the more aggressive tread on regular rough terrain tires.

Genie® S®-40 HF and S-45 HF Telescopic Boom Lift

The Genie ® S-40 XC™ and S-45 XC™ telescopic booms are engineered to work in more applications that require higher capacities. With industry-leading dual lift capacity — 660-lb (300 kg)/1,000-lb (454 kg) — a smooth operating envelope, this new XC boom lift is a perfect fit for your customers’ heavy lifting in construction, bridge inspections and maintenance, stadium and sports arena, gas and oil refineries, industrial, telecommunications and utility applications.

Genie® S®-40 XC™ and Genie® S®-45 XC™ Telescopic Boom Lift

Genie®S®-40 and S-45 telescopic boom lifts increase productivity with the traction and drive speed needed to get around jobsites and work areas. These units are designed to easily manoeuvre in tight spaces on construction and industrial sites. S-40 Overview. • Full-time active oscillating axle and full-time positive traction help maintain traction on rough terrain.
