The geography resources available now, are nothing in comparison to what is available to students today. I have a passion for geography, always liked maps and learning about countries. Not sure where it came from, but it helped guide me towards teaching social studies. Here are some tips that I have for teaching Geography with technology. 1.)

## **10 Resources for Teaching Geography with Technology**

Geography is the study of places and the relationships between people and their environments. Geographers explore both the physical properties of Earth's surface and the human societies spread across it. They also examine how human culture interacts with the natural environment, and the way that locations and places can have an impact on people. . Geography seeks to understand where things ...
