Detroit Diesel 12V-71 Marine Diesel Engine

The Detroit Diesel Series 71 is a two-stroke diesel engine series, available in both inline and V configurations. The first number in the model series designation refers to the number of cylinders, and the second - 71 - the nominal displacement per cylinder in cubic inches, a rounding off of 70.93 cu in (1.2 L).

GM Marine Engine Technology Products | GM Powertrain Marine

Further to my previous comment, I remember a pair of "handed" Gray Marine 6-71 engines, with Twin Disc marine gearboxes (Allison Division of GM) that had been taken from a landing craft, so they had been built during WW II. They still had their brass plates on the flywheel housing with the official number issued by the US Bureau of Ships.
