Its simple and neat and lets you navigate through the MCDU in various ways enabling vital study information to be displayed alongside for you to learn about this computers capabilities and functions.

[Airbus A320: An Advanced Systems Guide](#)

The A320 Study Guide was created by a need to produce one document with all the information required to learn the basics of the A320 systems, limitations and the associated failures all in one place. There are many other great products or documents that go into the technical aspects in far greater detail than ours, however sometimes this can be a bit of an overload of information.
