An enabler isn't a bad person; they feel as though they're trapped in a pitfall. Unfortunately, they are counter-intuitive to the recovery process for the addict. 5. Inability To Express Emotions. An enabler who understands what's going on and still makes excuses for their loved one's behavior is unable to properly express their emotions.

Hi. We're Ben and Amy. Some might say we're the brains behind Enable Education. We're definitely #edugeeks. Throughout our years as educators, we've seen how the traditional sage on the stage method of teaching isn't enough to support 21st century learners. Learners of all kinds need to be engaged with modern tools and methods that promote knowledge retention and motivation.

by Darlene Albury, LCSW An enabler is a person who by their actions make it easier for an addict to continue their self-destructive behavior by criticizing or rescuing. The term codependency refers to a relationship where one or both parties enable the other to act in certain maladaptive ways. Many times, the act of the enabler satisfies a need for the codependent person because his or her ...
