I don't think the HS621  
*Page 18/22*

## Download Free Honda Snow Blower Hs621

is too close in size to a HS724. The HS724 is a step up in a different league, (2 stage, 6.5 hp, 24" path, self propelled, available in a track drive, and quite a bit more \$\$\$).

However, I think the HS621 and HS724 may share the the same GX160 engine, just tuned differently.
