School children do use their education-for example, to mediate for their parents with disrespectful health professionals. Hopes in Friction exemplifies the power of the anthropological gaze to move us outside the narrow confines of educational policy debates, allowing us to re-examine both the dead-ends and promises of schooling.

Many families every year, spend Labor Day getting kids ready to go back to school. It's a routine that both parents and kids are used to. But what's different this year is COVID-19 that has taken nearly 200,000 lives in this country with no hope for a vaccine anytime soon. Based on that, some parents are not ready to send their kids back to school over health concerns.
