Goldman, the author of the new book, How Civilizations Die (and Why Islam is Dying, Too), which Regnery brought out this fall.After 9/11, Goldman began writing weekly essays at Asia Times Online under the byline "Spengler."At the time he directed a research group at Credit Suisse, and afterward ran fixed income research for Bank of America.

~~Book Review: David Goldman's "How Civilizations Die"~~

Why civilizations die. Sometime between the middle of the eighth and ninth century the majority of the Mayan people simply disappeared. There have been many theories as to why it happened. It may have been a prolonged drought, overpopulation, internecine wars, a devastating epidemic, food shortages, or a combination of these and other factors.
