Introduction Theatre And Theatre Studies

In the past, theatre was often used as a synonym for drama, a usage that can be still be found in the names of some university departments. The terminological complexity of the term means that the object of theatre studies is multi-dimensional and composed of many different fields of enquiry and scholarly perspectives.

Erika Fischer-Lichte's introduction to the discipline of Theatre and Performance Studies is a strikingly authoritative and wide ranging guide to the study of theatre in all of its forms. Its three-part structure moves from the first steps in starting to think about performance, through to the diverse and interrelated concerns required of higher-level study:

Amazon.com: The Routledge Introduction to Theatre and ...

Following a cross-cultural perspective, the book surveys the ways theatre and performance are studied by looking initially at key elements such as performers, spectators and space. The central focus is on methodology, which is divided into sections covering theatre theory, historiography and textual and performance analysis.

theatre studies. The term "theatre" has its origins in the Greek word *theatron*, meaning a "place for looking." Thus, originally, theatre referred to both a place as well as to a particular form of sense perception. Today, the concept of "theatre" can refer to: (1) a building; (2) an activity ("going to" or "going" theatre); (3) an institution; and, (4) more narrowly, an art form.
