Many tables representing data on commercial alloys can also found in the second edition of Introduction To Physical Metallurgy by Sidney H Avner. A few of the chapters in the book include Alloy Steels, Plastic Deformation, Cast Iron, Phase Diagrams, Powder Metallurgy, Wear of Metals, and Constitution of Alloys.

Introduction to the Physical Metallurgy of Welding ...

The first chapter is designed to provide a wider introduction to the many process variables of fusion welding, particularly those that may influence microstructure and properties. The middle two deal with the microstructure and properties of the welded joint, such as the weld metal and the heat-affected zone.
