I just traded a DRZ400 for an '06 450
EXC. Love the change! The 6-speed EXC
is a much better dual sport. I've added
the fan kit, 1.8 radiator cap, and
overflow bottle to prevent the big
coolant "burp" you get with the stock
setup.

2006 KTM 400 EXC: Opinions? | Adventure Rider

In the end, KTM's 2007 450 EXC is the
dual-purpose bike you'd probably build if
you were first and foremost interested in
riding trails all day except for the
occasional road section to fill the tank or
your belly, or to get to another trail. If
you want to ride mostly dirt roads and
pavement, get something else.

KTM 300 EXC vs. KTM 400 EXC - Dirt Bike Review & Test ...

my understanding is that the 450 is the stroked version of the 400. The 400 will be a better woods bike while the 450 will be better where you can open it up. An alternative to the 400 EXc would be a Suzuki DRZ400E. Its slightly heavier then the KTM (260 lbs) but a great woods bike.
