This Blu-Ray player comes with apps for Netflix and YouTube and a few other things I won't use. I don't think you can add more apps, maybe if someone knows how they could comment. I love the picture and the 3d is amazing on my 55" LG. I love it, the only downfall for me was it's smaller than I had imagined.. But that might be a plus for some.

It works as advertised. I bought this because I have a 3D TV. I bought a few 3D movies because I have a 3D bluray player now. However, after watching a couple of movies with my glasses and limited content, it's only collecting dust. But if you really want it, no qualms on this device.
