Linguistic Genocide. When the United Nations (UN) undertook preparatory work for what became the 1948 International Convention for the Prevention and Punishment of the Crime of Genocide, linguistic genocide as a central aspect of cultural genocide was discussed along with physical genocide as a serious crime against humanity. The ad hoc committee that prepared the Convention specified the following types of acts as examples of cultural genocide in Article III:

Education about the Holocaust and genocide Education can play a key role in preventing genocide by providing a forum to address past violence while promoting the knowledge, skills, values and attitudes that can help prevent current day group-targeted violence.

### **Education about the Holocaust and genocide**

In linguistics, language death occurs when a language loses its last native speaker. By extension, language extinction is when the language is no longer known, including by second-language speakers. Other similar terms include linguicide, the death of a language from natural or political causes, and rarely glottophagy, the absorption or replacement of a minor language by a major language. Language death is a process in which the level of a speech community's linguistic competence in their langua
