How to Make a Holographic 3D Pyramid - Instructables

How Does the 3D Hologram Pyramid Work? The DIY hologram pyramid is a simple device that can be made by manipulating a sheet of plastic into the shape of a pyramid with its top cut off. The device creates a 3D-like illusion for the viewer and makes an image or video appear as if it were in midair. It works on the principle of Pepper's Ghost. Four symmetrically opposite variations of the same image are projected onto the four faces of the pyramid.
