Joined: 9/27/2006. Last visit: 10/9/2020. Posts: 10002. Rating: (2104) Hello arifinsabuz; The terms PZD (German initials for "Process Data") and PKW (German initials for "Parameter Values") are used in the description of the ProfiDrive profile; in other words, they are part of the description of communications between a CPU and a drive, using Profibus or Profinet.

Meaning of PPO, PZD and PKW - Entries - Forum - Siemens

Say, again, the Profibus configurator allocates input and output addresses 256..259 to your drive interface using PPO3. You can interpret this this way: -PQW256 is the Control Word (To start the drive, write hex 447E, then 447F to this address)

PPO 4 MM420 - Entries - Forum - Industry Support - Siemens

All MICROMASTER components can be replaces at once or as partial/step-by-step retrofit. Several other elements can be included (replacement of motors and controls, adaption of the technical documentation of the machine, training of machine operators in the operation and maintenance of new components).
