Review

Gerontological nursing is the specialty of nursing pertaining to older adults.

Gerontological nurses work in collaboration with older adults, their families, and communities to support healthy aging, maximum functioning, and quality of life. The term gerontological nursing, which replaced the term geriatric nursing in the 1970s, is seen as being more consistent with the specialty's broader ...

Nursing Assistants play an important role in basic patient/resident care activities in hospitals, nursing homes, and other health care settings, including home health care.

~~Gerontological nursing~~ ~~Wikipedia~~
The Semi-Fowler's position is a position in which a patient, typically in a hospital or nursing home is positioned on their back with the head and trunk raised to between 15 and 45 degrees, although 30 degrees is the most frequently used bed angle. The elevation is less than that of the fowler's position, and may include the foot of the bed being raised at the knee to bend the legs.
