~~The Complete Car Tune Up Cost Guide—
How Much Does A Tune ...~~

In modern cars, a "tune-up" is a major service that includes an oil change, replacement of an engine air filter, spark plugs and possibly a few additional items. A tune-up is usually recommended if a car starts running poorly (scroll down for symptoms), or when your spark plugs are due for replacement according to the maintenance schedule.

Historically, American auto consumers turned their noses up at four-cylinder engines, believing them to be slow, weak, unbalanced and short on acceleration. However, when Japanese auto makers, such as Honda and Toyota, began installing highly efficient four-cylinder engines in their cars in the 1980s and '90s, Americans found a new appreciation for the compact engine.

~~Engine tuning - Wikipedia~~

Engines are no different from other vehicle systems in that they too have parts that wear out and need to be replaced according to vehicle manufacturer guidelines that are based on time and mileage. Waiting for parts to fail before performing a routine engine tune up is a recipe for disaster as significant engine damage could occur.

~~Tune Protect Motor Easy | Tune Protect~~

Ending engine tapping noise. There are 2 places in the motor that cause the tap. 1- A sticky, slow-closing valve where a space appears and closing the space causes the tap tap tap on engine rotation as the valve is pushed open. 2- A tap occurs when the wear adjuster for one of the valves has sludge blocking oil to it.
